

DRUK TRACE

A Contact Tracing Mobile App

A COVID-19 Response System
April 2020

Background on Systems for Covid-19

- 1 Bhutan has been lucky so far that we do not have local transmission
- 2 Places and public transport mandated to keep log books in case of local transmission
- 3 Now, the Druk Trace App for making contact tracing more efficient

What is a Druk Trace App?

- 1 The “**Druk Trace**” app is a Mobile application used for “Contact Tracing” in Bhutan.
- 2 Identifies people who may have come in direct contact with a COVID-19 infected person while visiting public places or while using public transportation.
- 3 Every offices, business entities, public transports (taxis and buses) and relevant places are required to publicly display a QR code generated from the Druk Trace App.

Who would use the App?

- 1 The “**Druk Trace**” app would be used by people having smartphones and registered SIMs.
- 2 All those who are visiting Public places.
- 3 All those who travel in Public Transport.
